cement table  
design by Nollette Studio  
[www.nollettestudio.com](http://www.nollettestudio.com)

Brooklyn-based Nollette brings a stunning uniqueness to the Cement Table, the name of which is as direct as the piece itself. Made of cast concrete and steel reinforcement, the table suggests a modern, bold and dignified simplicity, as tasteful as it is sturdy. A robust design of functional minimalism, the Cement Table offers a daring compliment to any patio setting.

sea view by Ceccotti for Modern Living  
design by Roberto Lazzeroni  
[www.ceccotti.it](http://www.ceccotti.it)

Designed for Ceccotti by Roberto Lazzeroni, the Sea View collection brings interior furniture design to the next level. The items evoke a sophistication that pushes patio furniture to the next level. The Tavolo table and the Sedia chair suggest that the space outside is merely an extension of the home.
