Nollette Studio: The latest from Maureen Nollette and Matthew Patulski is the Circle series, a stunning and spare collection of tables rendered in cast concrete and brushed steel. Although this husband-and-wife team embraces commercial materials and industrially-precise finishes, that doesn't mean they have forsaken the natural altogether. In fact, Nollette Studio has adopted a number of environmentally friendly processes, including recycling the majority of its manufacturing waste stream. Nollette Studio, 64 Union Street, 2nd Floor, Brooklyn, NY 11231. www.nollettstudio.com. **circle 252**
